MEMO

DATE: January 25, 2013

Mayor, City Council and City Manager TO:

FROM: Joseph R. Sabatelli, CPA Finance Director

RE: Second Quarter FY2013 Budget and Financial Report

The second quarter 2013 budget analysis includes activity during the period July 1, 2012 through December 31, 2012 for the General and Airport Funds' revenues and expenses and the Capital Escrow Fund expenses. While reviewing the reports and reading my analysis, a few pertinent items should be remembered. The balances included in the following reports will reflect differences between year-end financial reporting (June 30, 2012) and standard reporting (quarterly reports), and therefore these reports may not be completely indicative of the actual financial condition of the City of Morgantown as it relates to these Funds. Unexpended amounts do not necessarily mean that the cash is on hand and available for immediate payment, and requires constant monitoring of receipts and disbursements by the Department of Finance staff. It should be noted that changes are being made to provide as much comparability as possible for all reporting periods to and including adjustments associated with amounts payable and receivable reported in the period they were incurred/earned. This is an ongoing process that will not be fully realized until an upgrade of the City's accounting system can take place, however the amounts attached reflect as much accrual information as available through the date of this report. The amounts indicated as "Budget" include the most recent budget adjustments approved by Council through the date of this report along with reallocations requested by department heads within their respective departments and approved by the Department of Finance.

There has been much discussion recently regarding the City's "Contingency Fund" and how much money is in the fund. As a point of clarification, the City does NOT have and NEVER has had a "Contingency Fund" and therefore if it does not exist, it cannot have any cash in it. All budgeted funds of the City have a line called "Contingency" which is, in essence, the estimated unallocated amounts. As previously stated, just because there are amounts available in a budget or budget line, does NOT mean cash is either in hand or available. The City has established a Financial Stabilization Fund and has budgeted \$237,538 to contribute to this Fund from the Capital Escrow Fund, however as of the date of this report, no contribution has been made and there is no balance in this fund.

Capital Escrow Fund:

The Capital Escrow Fund report includes amounts to be provided as contributions to other agencies as well as projects and capital equipment to be purchased. Many projects and activities span both the previous and current fiscal years, while others included in the budget approved in March 2012 were completed prior to the end of the fiscal year ending June 30, 2012. As stated above, remaining budget balances are not indicative of actual cash on hand and available to pay towards projects. The Capital Escrow Fund receives the majority of its revenue as a contribution from the General Fund, namely one-time B&O revenues from construction projects over \$5,000,000; however, some funding comes from outside sources such as grants and other contributions towards projects. The proceeds of the recently approved \$1,000,000 capital lease are also included as a contribution from the General Fund and the remaining unallocated portion is listed as "Contingency-Capital Lease". With certain funding sources, it is expected that the Capital Escrow Fund must pay for and complete certain projects and be reimbursed for these expenditures, but due to unexpected delays in the receipt of this funding, more specifically the Land and Water Grant for Jerome Park and donations received by Main Street Morgantown for the Morgantown Market Place, coupled with delays in large scale projects and the start of the Airport Access Road of which funds are provided from the Capital Escrow Fund, other projects will likely be deferred, including contributions to local agencies and the Financial Stabilization Fund. The nature of the Capital Escrow Fund is the funding of capital projects; however, over the years it has also migrated to include the funding of some local agencies and projects, therefore expenditures cannot be easily compared from year to year.

General Fund:

The General Fund is the major operating fund of the City of Morgantown and accounts for much of the taxes and fees charged by the City. As of December 31, 2012, 51.03% of the adjusted budgeted revenue has been received. The largest revenue for the City is the Business and Occupation Taxes, which are approximately half of all revenues to be collected. 50.45% of adjusted budgeted B&O Taxes and 16.45% of adjusted budgeted B&O – Construction Taxes were collected, which is a .1% decrease in standard B&O taxes from the same period the previous. As noted, B&O - Construction Taxes account for the one time construction projects with an initial cost of \$5,000,000 or more that take place in the City and thus are not as easily comparable to prior years; however those collections are down 57.63% from the previous year. It should also be noted that all B&O collections by the City during these periods are always one quarter behind, for example collections from July 1 through September 30, 2012 were actually for the tax period April 1 through June 30, 2012, similar to our federal income taxes where we receive income for a calendar year and pay our taxes in the subsequent year. Overall, revenues are down .67% from the same period the previous year.

The revenue projections section has not been included with this report due to the preparation of a mid-year budget adjustment. Expected changes in certain revenues will be reflected at that time and presented to council upon the completion of the budget recommendation.

Expenses for the period ending December 31, 2012 are 45.60% of approved budgeted amounts, and represent a 4.5% decrease of expenditures from the previous year which is an approximate \$530,000 decrease. This decrease in expenditures is the net effect of activity throughout the quarter however some key highlights include:

- 1. Police and Fire Contributions are paid monthly in the current year while the full year contribution was paid prior to the end of the quarter during the same time period the previous year, a \$506,130 decrease with an additional \$585,025 to be paid through the remainder of the current fiscal year
- 2. \$126,800 increase in workers compensation insurance due to the timing of the payment
- 3. Liability insurance has not been allocated to the various departments and funds due to changes in property values, the insurance has been paid and will be likely show a distribution to the expense at the next quarterly report
- 4. \$133,420 decrease in salt, which was not needed to be purchased due to the lack of snow in the prior fiscal year and remaining salt reserves
- 5. \$74,134 increase in vehicle supplies, it should be noted that approximately \$10,000 of this is for the increase in the value of fuel inventory on hand at December 31
- 6. \$77,397 decrease in debt service due to the refinancing of the public safety building, it should be noted that this is only a one year decrease and the debt service payments will return to normal start this month
- 7. \$194,754 combined increase in contributions to BOPARC and the Morgantown Public Library which is mostly the result of the change in Life and Health contributions, where these entities now pay the full premiums
- 8. \$116,739 decrease in health and life insurance due to the increased payments from BOPARC and the Morgantown Public Library as described in item 7.

The accompanying charts have been added to provide a visual aid for your comparison of overall financial activities. These charts are for only activities in the General Fund and therefore contributions made to other agencies and capital activities paid through the Capital Escrow Fund are not included in the charts.

Airport Fund:

The Airport Fund, which is an enterprise fund, recoups its costs by charging fees to those utilizing its services. The goal is not to make a profit, but to charge enough in fees to continue to operate and improve upon operations.

Currently, revenues are 44.14% of those budgeted for the period ending December 31, 2012, which there is an 8.55% decrease from the same period last year. The largest source of revenues for the Airport is fuel sales, of which 43.59% of budgeted revenues have been received, a decrease of 5.01% from the previous year. Conversely, these revenues are associated directly with the cost of fuel purchased, which are 48.53% of that budgeted. Expenditures are 46.36% of budgeted amounts and are up .53% from the prior year.

Due issues concerning cash flow, the Airport has not had the funds to pay all invoices, fuel and payroll. Through December 31, \$58,400 has been borrowed from the Capital Escrow fund with an additional \$18,552 borrowed on January 11th. These borrowings were used to ensure that fuel, payroll and certain essential invoices were paid, however nothing has been available to repay. As discussed above, the General Fund has paid for liability insurance for all other funds until appropriate allocations can be made, which will include approximately \$12,000 from the Airport Fund for its portion.

Please feel free to forward any questions you may have to City Manager Terrence Moore, Deputy City Manager Jeff Mikorski, or myself.
